DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 07/20/2005 have been fully considered but they are not persuasive.

The Applicant contends, "Noguchi does not disclose or suggest performing error correction in a reduced power mode, as required by independent claims 1, 25, and 26". The Examiner disagrees and asserts that col. 4, lines 65-67 in Noguchi explicitly teaches "reducing the power consumption in the error correction processing means" by reducing the number of iterations in the iterative decoding processing means. That is, by reducing the number of iterations in the iterative decoding processing means, error correction processing is performed in a reduced power mode.

The Examiner disagrees with the applicant and maintains all rejections of claims 1-4, 7-10, 25 and 26. All amendments and arguments by the applicant have been considered. It is the Examiner's conclusion that claims 1-4, 7-10, 25 and 26 are not patentably distinct or non-obvious over the prior art of record in view of the references, Noguchi; Nobuaki (US 6611939 B1) in view of Cameron; Kelly (US 5099482 A) as applied in the last office action, filed 04/19/2005. Therefore, the rejection is maintained.

Application/Control Number: 09/976,731 Page 3

Art Unit: 2133

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- Claims 1, 2, 7, 8, 25 and 26 are rejected under 35 U.S.C. 102(e) as being anticiapted by Noguchi; Nobuaki (US 6611939 B1).
 See the Non-Final Action filed 04/19/2005 for detailed action of prior rejections.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

The factual inquiries set forth in *Graham* v. *John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

- 1. Determining the scope and contents of the prior art.
- 2. Ascertaining the differences between the prior art and the claims at issue.
- 3. Resolving the level of ordinary skill in the pertinent art.
- 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Application/Control Number: 09/976,731 Page 4

Art Unit: 2133

3. Claims 3, 4, 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Noguchi; Nobuaki (US 6611939 B1) in view of Cameron; Kelly (US 5099482 A). See the Non-Final Action filed 04/19/2005 for detailed action of prior rejections.

Allowable Subject Matter

4. Claims 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

See the Non-Final Action filed 04/19/2005 for detailed action of prior rejections.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
